COMBINING SENTENCES: EDITING CHOPPINESS

Rewrite the following paragraph so as to eliminate the choppiness and disconnection of the sentencing:

(ANSWERS MAY VARY)

The next sample is formula D-7, which is an excellent adhesive, because it was the strongest and one of the most water-resistant of any tested. However, it has several disadvantages. Its cost is very high. Its viscosity would perhaps require new application equipment and modifications in existing application equipment. Additionally, its storage-temperature requirements are rather strict. In my judgment, these disadvantages are outweighed by its overall quality. Therefore, I recommend that Formula D-7 be used for the project.
